

Hosted Services

Reduce administration cost and complexity with cloud-based visual management tools

- ✓ **Maximize business operation** with always-on access to key applications
- ✓ **Reduce onsite costs** using our hosted cloud-based management
- ✓ **Automate and optimize** your wired and wireless network with zero-touch
- ✓ **Prevent business disruption** with expert monitoring and reporting

Allied Telesis hosted management and automation of wired and wireless network devices improves performance, reduces IT overhead, and lets you **focus on running your business**.

Why choose our hosted services?

Be confident you're not overspending

Scalable and flexible per device pricing enables your business to pay-as-you-grow

Remove planning uncertainty

Reduce CapEx with no need for onsite management server resources

Reduce IT team expenditure

Predictable OpEx supported by network automation tools, and simplified configuration and troubleshooting

Eliminate downtime concern

Ensure business continuity with 24x7 expert technical support from a trusted partner

Hosted wired and/or wireless network management includes:

- **Centralized wired network control**, with automated backup, recovery, and upgrade using Autonomous Management Framework (AMF)
- **A self-tuning wireless network** that automatically optimizes performance for a superior user experience with Autonomous Wave Control (AWC)
- **Easy cloud-based** wired and wireless visual management using Vista Manager EX for reduced administration time, effort, and cost
- **24x7 expert monitoring** and reporting from Allied Telesis experts for peace of mind

Hosted management of your network devices leverages the power of our AMF wired and AWC wireless automation tools. Choose either or both to best support your network.

AMF enables auto backup, auto-provisioning, auto-recovery, auto upgrade, and centralized management of all of your Allied Telesis switches, routers and firewalls.

AWC benefits include automatic optimization of Wi-Fi performance, seamless roaming using AWC-CB (Channel Blanket), upgrading your network without the need for new cabling using AWC-SC (Smart Connect), and more.

Both the AMF and/or AWC options include:

- 1) Access to the power of visual network management using Vista Manager EX.
- 2) 24x7 network monitoring and issue notification from Allied Telesis experts.

Enjoy reduced administration overhead with AMF, AWC and Vista Manager EX all hosted by Allied Telesis in the cloud for easy access from anywhere at any time. The following tables show our standard basic and advanced options:

Hosted wired management

	AMF Basic	AMF Advanced
Customer size	Small	Medium/Large
